

■■■ CrossTimbers™ –
The Better Building Boards™

Elk CrossTimbers decking stays beautiful longer – a more durable alternative to treated lumber and other composite decking and fencing. Its unique composition yields superior strength, longevity and dimensional stability and, unlike treated wood, no staining or sealing is required. Elk stands behind CrossTimbers with a 20-year limited warranty.* CrossTimbers is available in five colors designed to age with a rich, natural patina. Elk RailWays™ deck railing systems offer high-quality, decorative deck accessories for more creative options, featuring the Traditional and Old World Series.

Visit elkcorp.com for color examples and more information.

■■■ Products you can count on.

Readers of *Builder* magazine recently named Elk premium shingles “Best Quality” in the roofing category for the eighth consecutive year.* Renowned for the dimension and beauty of an Elk roof, we continue to be a quality leader with advances like the Elk Cool Color Series, the first energy-efficient laminated asphalt shingle available in a selection of beautiful earth-tone colors.

Elk CrossTimbers™ composite decking and fencing delivers superior strength, longevity, and flexible design options for a more beautiful, longer-lasting deck or fence. Elk RailWays™ deck railing systems offer high-quality, decorative deck accessories for a finished look.

Visit elkcorp.com today for more information on the full range of Elk building products or to find a contractor near you.

■ ■ ■ The legendary beauty and strength of an Elk roof

Elk's family of shingles adds beauty and depth to your home – plus Elk's renowned quality, durability and protection. An Elk roof offers a wide range of striking, dimensional styles and colors to complement any home's architecture. Plus, the strength of Elk stands behind each Elk roof, with top UL® wind-resistance and Class "A" fire ratings, plus some of the best warranties in the business.*

When used in conjunction with other Elk roof accessories for a complete Elk roof, Elk shingles create a total roof system that delivers outstanding beauty and protection against wind and moisture, the security of buying from a single source and increased Umbrella Coverage on the shingles to seven years.*

Elk's leadership in quality, history of product innovation, and proven manufacturing excellence add up to peace of mind for homeowners.

Prestique Grandé High Definition Weatheredwood

■ ■ ■ Elk shingles

PRESTIQUE® shingles offer a rich dimensional appearance that adds depth and texture to a home's roof.

PRESTIQUE GRANDÉ combines the beauty of Prestique with a dramatic, large-scale shingle that's 40% bigger than standard shingles.

PRESTIQUE GALLERY COLLECTION™ was created in collaboration with internationally-acclaimed artist Bart Forbes.

DOMAIN® WINSLOW® has a bold, wood-shake appearance that creates natural warmth and character for homes and steep-slope buildings.

CAPSTONE® is dramatic and beautiful, recreating the classic appearance of a slate roof.

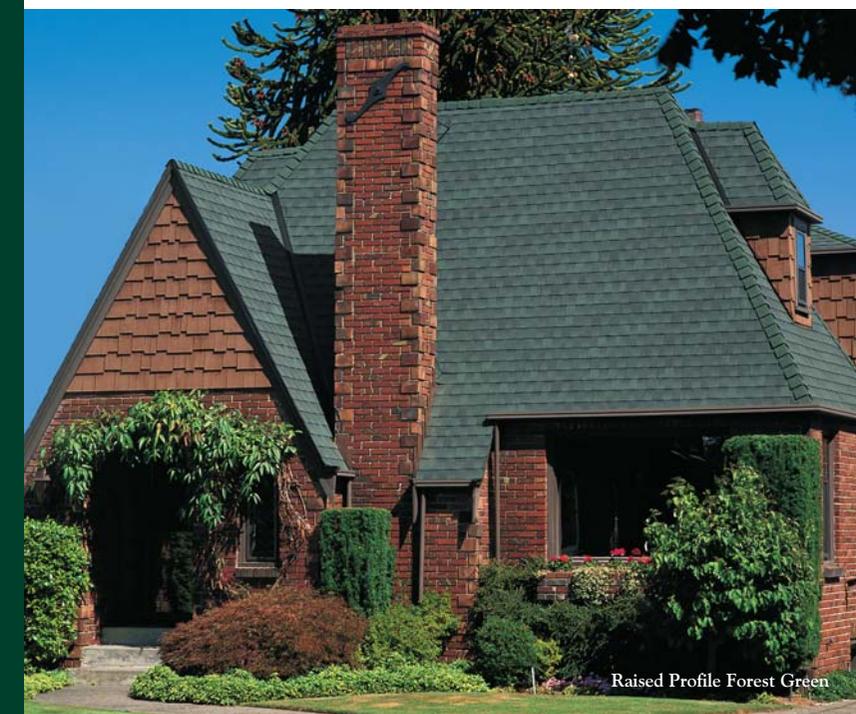

PRESTIQUE COOL COLOR SERIES is the first energy-efficient "cool" asphalt shingle offered in a palette of rich, organic colors other than white.

RAISED PROFILE® shingles create a warm, authentic wood-like appearance with deep dimension and coloration.
